W 000	INITIAL COMMENTS  A recertification survey was conducted from May 28, 2008, through May 30, 2008, using the fundamental survey process. A random sample of three clients was selected from a residential population of six females with mental retardation and other disabilities. The survey findings were based on observations in the group home and at one day program, interviews, and a review of records, including unusual incident reports. W 114	483.410(c)(4) CLIENT RECORDS  Any individual who makes an entry in a client's record must make it legibly, date it, and sign it.  This STANDARD is not met as evidenced by: Based on interview and record review, the facility failed to ensure that each entry into a client's record was signed and dated, for one of three clients (Client #1) included in the sample.  The findings include:  1. Interview with the Qualified Mental Retardation Professional (QMRP) and review of Client #1's medical records on May 29, 2008, revealed the nursing personnel documented the annual nursing assessment and nursing quarterlies on the same form. Review of the document revealed specific sections where the nurse that performed the assessment (quarterly or annual) was to sign and date it after its completion. Closer review of the form failed to provide evidence that the annual assessment for Client #1 was signed and dated by the nurse that performed/completed the assessment.  2. Any deficiency statement ending with an asterisk (\*) denotes a deficiency which the institution may be excused from correcting providing it is determined that other safeguards provide sufficient protection to the patients. (See instructions.) Except for nursing homes, the findings stated above are disclosable 90 days following the date of survey whether or not a plan of correction is provided. For nursing homes, the above findings and plans of correction are disclosable 14 days following the date these documents are made available to the facility. If deficiencies are cited, an approved plan of correction is requisite to continued program participation.

Review of the day program's inter-agency communication (dated November 20, 2007) revealed that there was an "imprint of teeth prominent in skin but there were no obvious breaks in the skin. Area cleansed with antibacterial soap and water. To be taken to ER for further evaluation and treatment." Further review of the communication revealed that the police and EMS arrived and determined that it was not necessary to transport the client to the emergency room due to the fact that Client #1's skin was still intact.  Additional review of the incident report package and interview was conducted with the QMRP on May 28, 2008 to determine why the day program nurse requested emergency medical services. Observation of Client #1 entering the facility on May 28, 2008 at 3:37 PM revealed the client was wearing yellow crop pants. The pants appeared to be made of a cotton-like material and fit closely to the client allowing her Adult Protective Undergarment (APU) to be seen. When staff were queried as to the fit of Client #1's pants and observation of her APU, staff immediately assisted the client to change her clothing.  On May 30, 2008 at 12:20 PM, Client #1 was again observed to be wearing pants that fit closely. The impression of the client's APU was observed in the front of the client's pants and in the back. Interview with the staff revealed that the client had recently gained weight and many of her pants fit too closely. After the discussion with the staff member, Client #1 was escorted to her room and was assisted with changing her clothes. I 424	<p>Continued From page 9</p> <p>Review of Resident #1's record on May 29, 2008 at 10:50 AM, revealed the resident's Individual Support Plan (ISP) meeting was held on December 18, 2007. Interview with the QMRP and review of the resident's corresponding IPP at 4:12 PM revealed the team recommended program objectives including the following for the current ISP year:</p> <ul style="list-style-type: none"> <li>- Given verbal cues, Resident #1 will ambulate up and down stairs, 5 repetitions, 3 days per week for 12 consecutive months.</li> <li>- Given physical assistance, Resident #1 will ambulate for 10 consecutive minutes, 3 days per week for 12 consecutive months.</li> </ul> <p>Interview with the QMRP and continued record review on May 30, 2008 revealed Resident #1 achieved the criteria for the aforementioned two program objectives prior to the ISP in December 2007. According to further interview and record review, the objectives were first introduced to Resident #1 in 2006. At the time of the survey, the QMRP failed to ensure Resident #1's program objectives were revised after the Resident achieved criteria.</p> <p>(See Federal Deficiency Report Citation W255)</p>	I 424
